Dr. Sumon Mazumdar is a vice president at Analysis Group, Inc., and a member of the finance faculty at the University of California Berkeley's Haas School of Business, where he has taught courses on corporate finance, derivatives, and capital markets since 1996.

Dr. Mazumdar is a distinguished financial economist whose research and teaching spans capital markets, credit risk, derivatives, regulatory economics, corporate finance, risk management, insurance, and securities law. He is listed among the world's most prolific finance scholars and his research has been cited by *The Wall Street Journal*, *The Economist*, *Reuters*, *Bloomberg*, *Forbes*, and in briefs to the U.S. Supreme Court. Dr. Mazumdar is listed in *Harvard Business School's Profiles in Business and Management*. In October 2015, the University of California at Berkeley matched a grant from a former student to establish the Sumon C. Mazumdar Fellowship, which will provide future generations of doctoral students at the Haas School of Business at Berkeley.

As a consultant over the past 17 years, Dr. Mazumdar has applied his expertise to provide economic analyses in the context of capital markets litigation, class actions, regulatory investigations, valuation, commercial damages, and tax controversies. He has advised clients on class certification, materiality, loss causation, and damages issues in several of the largest securities class actions, and economic issues related to alleged insider trading, market manipulation, hedge fund trading strategies, portfolio risk and suitability of investment, and major Ponzi schemes.

As an expert on credit risk and derivatives, Dr. Mazumdar has evaluated the pricing of default risk, structured finance products of various types, sovereign debt instruments, and firms' ability to pay penalties. He has developed an employee stock option valuation model used by some of the world's largest technology firms, for reporting purposes.

As an expert on commercial damages, Dr. Mazumdar has evaluated damages in significant disputes related to breach of contract, intellectual property, complex financial instruments, and the value of partnership interests and transfer pricing arrangements in major tax controversies.

Dr. Mazumdar is a member of the American Bar Association's (Section of Litigation) Class Actions and Derivative Suits and Securities Litigation leadership committees, where he co-chairs the Structured Finance and *Securities Litigation Journal* subcommittees. He has been an invited speaker at conferences hosted by the American Bar Association, universities, international academic associations, U.S. Federal Reserve Banks, and the International Monetary Fund, and appeared before the Chief Accountant and Chief Economist of the Securities and Exchange Commission to discuss issues relating to the valuation and expensing of employee stock options.

SELECTED CONSULTING EXPERT PROJECTS

Mutual fund fees

- Led team supporting academic affiliate and providing consulting services in dispute over the fees associated with a mutual fund offered by a leading mutual fund advisor. Topics researched include the economic reasonableness of mutual fund fees, relative performance of mutual funds, competitiveness of the mutual fund industry, economies of scale, determinants of mutual fund fees, the effect of fund size on performance.

Mergers

- Consulting expert in shareholder class action against a technology firm's Board of Directors alleging the Board breached its fiduciary duty in selling the company to a major technology firm in the same business.

Securities Class Actions

- *In re Fed. Home Loan Mort. Corp. (Freddie Mac) Sec. Litigation.* Developed economic models

and analyses to rebut Plaintiffs claim that Freddie mac Series Z preferred stock traded in an efficient market.

- ***Ohio Public Employees Retirement System, On Behalf of Itself and all Others Similarly Situated, v. Federal Home Loan Mortgage Corporation a/k/a Freddie Mac, Richard F. Syron, Patricia L. Cook, Anthony S. Pizel, and Eugene M. McQuade, Civil Action No. 4:08-cv-160 in the United States District Court for the Northern District of Ohio, Eastern Division (Youngstown).*** Developed economic models and arguments to assess the market efficiency for Freddie Mac's common stock and the Plaintiff's materiality claims.
- ***Lawrence E. Jaffe Pension Plan, On Behalf of Itself and All Others Similarly Situated, v. Household International, Inc., et al., Case No. 02-C-5893 in the United States District Court, Northern District of Illinois, Eastern Division.*** Developed economic arguments and empirical analyses related to loss causation and damages in this class action securities fraud arising from purported accounting irregularities and predatory lending practices to purportedly subprime borrowers.

Insider Trading Cases

- ***Securities and Exchange Commission v. Manouchehr Moshayedi, Case No. 12CV-01179-JVS-JPR in the United States District Court for the Central District of California (2013).*** Retained by Defendant's counsel to conduct economic analyses to review merits of SEC's insider trading allegations against the Defendant, the founder and former CEO of STEC, a maker of custom memory solutions.

Valuation of Illiquid Assets

- **Employee Stock Option Valuation.** Retained by Cisco Systems Inc. to analyze the economic effects of different employee stock option (ESO) valuation models permitted under FAS 123R, which I presented to the SEC's Chief Economist and Chief Accountant, and their research staff. Developed a model (to value non-traded ESOs under FAS 123R that utilizes the entire history of exercise behavior for Cisco used by several major technology companies for financial reporting. This method was published as a lead article in the *Journal of Derivatives*, entitled "A Matrix-Based Lattice Model to Value Employee Stock Options."
- **Sovereign Debt Valuation Model.** Valued Government Promissory Notes with unique contractual provisions under default that the Argentine government offered a major U.S. bank's Argentine subsidiary as part of a swap agreement in 2001. This valuation was based on the default probabilities implied by contemporaneous Argentine bond market data.
- ***In the Matter of Franklin Advisers, Inc., U.S. Securities and Exchange Commission Administrative Proceeding File No. 3-11572.*** Developed an economic model to determine the distribution payment from a Fair Fund established by the U.S. Securities and Exchange Commission ("SEC") to each investor injured by market timing in various Franklin Templeton Investments which was adopted by retired federal judge Charles B. Renfrew, the Independent

Distribution Consultant (the “IDC”), in the Proposed Plan of Distribution submitted to the SEC. May 2008. [Available on the SEC’s website].

Tax Controversies
