mickey.ferri@analysisgroup.com

800 17th Street, NW
Suite 400
Washington, DC 20006

Dr. Ferri specializes in applied business economics and has extensive experience in economic analysis, business strategy, and data analysis. His litigation work includes economic consulting on damages, class certification, fraud, irreparable harm, and commercial success in a variety of areas, including intellectual property, antitrust and competition, commercial disputes, and labor and employment. Dr. Ferri has served as a damages expert or consultant in more than 60 cases in US federal and state courts, submitted over 30 expert reports and declarations, and testified at deposition and trial in federal courts, state courts, and arbitration hearings. He has consulted to clients in several industries, including pharmaceuticals, medical devices, education, finance, real estate, software and hardware, cybersecurity, automobiles, natural resources, consumer products, entertainment, and sports.

Dr. Ferri has authored articles in journals published by the California Law Association and the American Bar Association, among others. He has been recognized multiple times as a top patent expert by *Intellectual Asset Management (IAM)* in the *IAM Patent 1000*. His work has been featured in several media outlets, including TechCrunch, NewsNation, CBS, LinkedIn, *Financial Services Review*, Venture Beat, and Digital Trends. Dr. Ferri is a USA Track & Field (USATF) San Diego-Imperial board member and a USATF national panelist. Prior to joining Analysis Group, he worked at multiple other economics consulting companies. He also co-founded two companies: One, backed by Y Combinator, developed and sold motion capture clothing to measure and improve human movement; the other used economics, data, and science to improve the lives of athletes.

Valuation, market analysis, and business strategy

- **The Potential Economic Impact of Legalizing iGaming on Casino Revenues in Five States**
Developed study to provide a comprehensive analysis of the potential economic impact of legalizing iGaming in New York, Illinois, Louisiana, Maryland, and Virginia. Measured the observed impact of iGaming in six states where iGaming is already active: New Jersey, Delaware, Pennsylvania, West Virginia, Michigan, and Connecticut. The study conducted 34 consumer research interviews and an online survey among 2,389 current and prospective gaming consumers to develop a data-driven understanding for how iGaming impacts the market. This study provides a framework, an analysis of the observed impact of iGaming, and a set of projections to best enable policymakers to make informed decisions. The study projects potential revenues in the projection states using the changes observed in the iGaming states in combination with each iGaming and projection state's unique characteristics. Developed supplemental studies to evaluate the impact of iGaming on casino-related jobs in New York, Illinois, Maryland, and Louisiana.
- **Business Strategy and Growth**
Developed business plan and financial strategy for water purification company. Market analysis, analysis of customer demand, pricing, revenues, expenses, unit economics, financing, operations, sales, marketing, distribution, and acquisition.

- **Patent valuation**
Valuation of patents and license agreements related to diagnostic applications and nutritional applications using lipid, protein, and genetic markers for gestational, infant, and children's nutrition. Market analysis, analysis of expenses, projected revenues, and costs. Implementation of income approach and cost approach.
